

extension of an existing information collection, before submitting the collection to OMB for approval. To comply with this requirement, the CFTC is publishing notice of the proposed collection of information listed below. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.¹

Title: Real Time Public Reporting and Block Trades (OMB Control No. 3038–0070). This is a request for comment on a currently approved information collection.

Abstract: The collection of information is needed to ensure that swap data repositories publicly disseminate swap data as required by the Commodity Exchange Act, as amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”). The Dodd-Frank Act directed the CFTC to adopt rules providing for the real-time public reporting and dissemination of swap data and rules for block trades.

In 2020, the Commission amended part 43 by issuing the Real-Time Public Reporting Requirements final rule (“2020 RTR Final Rule”).² The 2020 RTR Final Rule revised the method and timing of real-time reporting and public dissemination, generally and for specific types of swaps; the delay and anonymization of the public dissemination of block trades and large notional trades; the standardization and validation of real-time reporting fields; the delegation of specific authority to Commission staff; and the clarification of specific real-time reporting questions and common issues.³

On June 10, 2022, the Commission staff issued a Staff Advisory on Reporting of Errors and Omissions in Previously Reported Data (“Advisory”),⁴ which included a form as an Appendix (“Form”). The Advisory specifies the format and manner for submitting information required under regulations 45.14 and 43.3(e), and accordingly amended Information Collection 3038–0070. Subsequently, the Commission has revised the estimated burdens associated with 3038–0070.

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper

performance of the functions of the CFTC, including whether the information will have a practical use;

- The accuracy of the CFTC’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and

- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

You should submit only information that you wish to make available publicly. If you wish the CFTC to consider information that you believe is exempt from disclosure under the Freedom of Information Act (“FOIA”), a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the CFTC’s regulations.⁵

The CFTC reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <https://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the Information Collection Request will be retained in the public comment file and will be considered as required under the Administrative Procedure Act and other applicable laws, and may be accessible under FOIA.

Burden Statement: Provisions of CFTC Regulations 43.3, 43.3(e), 43.4, and 43.6 result in information collection requirements within the meaning of the PRA. With respect to the ongoing reporting and recordkeeping burdens associated with swaps, the CFTC believes that SDRs, SDs, MSPs, SEFs, DCMs, DCOs, and non-SD/MSP/DCO counterparties incur an annual time-burden of 803,142 hours. This time-burden represents a proportion of the burden respondents incur to operate and maintain their swap data recordkeeping and reporting systems.

Respondents/Affected Entities: SDRs, SDs, MSPs, and other counterparties to swap transaction (i.e., non-SD/MSP/DCO counterparties).

Estimated Number of Respondents: 1,742.

Estimated Average Burden Hours per Respondent: 461.

Estimated Total Annual Burden Hours on Respondents: 803,142.

Frequency of Collection: Ongoing.
